

## Stronger together

### Vienna Economic Forum and Forum Invest signs Memorandum of Understanding

Forum Invest proudly announces the signing of the MEMORANDUM OF UNDERSTANDING with Vienna Economic Forum, chaired by Erhard Busek, former vice chancellor of Austria, Special Co-ordinator of the Stability and Growth Pact and Coordinator of the Southeast European Cooperative Initiative (SECI),.

Both organisations have significant roles in identifying relevant regional economic topics, place them in international conferences, mobilizing key decision makers, opinion leaders, business representatives, mass media and specialists in order to carry on quality economic debates, organising international economic conferences to promote significant projects and thus developing the economic ties between countries in the region.

Through this MOU it was agreed that Forum Invest and Vienna Economic Forum will support each other initiatives, in order to enlarge their networks, range of activities and number of members; The MOU also stipulates an enhanced cooperation on the basis of conferences organised by both parties, with the possibility to share both speakers and participants, as well as information on the economic situation of both regions.

The signing of the MOU between Forum Invest and Vienna Economic Forum demonstrates that in times of crises the cooperation can be one of the major instruments for business development.

Forum Invest also considers that through the implementation of this initiative a new stimulus will be given to reburst the dialogue on the economic and political issues related to the Black Sea region.
