Among the first Banks in CEE...

- Volksbank AG (VBAG), majority shareholder of Volksbank International AG (VBI), was **one of the first** international banks to commence activities in Central and Eastern Europe (CEE).
- VBAG started its expansion into CEE in 1991 by establishing a subsidiary in Bratislava, Slovakia.
- In 2004 / 2005, DZ BANK / WGZ BANK on the one hand, and the French BPCE on the other, each acquired a stake of 24.5% in VBI.
- Today, the VBI Group comprises 10 successful and expanding VBI Banks in 9 countries in CEE: Slovakia, Czech Republic, Hungary, Slovenia, Croatia, Romania, Bosnia-Herzegovina, Serbia and Ukraine.

Focus on CEE / 1

Differentiate & analyse

- CEE has been hit by the crisis but has not caused the crisis
- The CEE countries must not be lumped together but should be viewed each from its different perspective
- Growth gap between CEE and Western Europe is unchanged
- Capital flows into CEE have slowed down considerably
- Long-term and cheap liquidity has „dried up“
- Support packages: EU Commission, EBRD, EIB, IMF

Focus on CEE / 2

Long-term potential (GDP, financing products)

Focus on CEE/3

Perspective: Upward trend towards end-2010

- Pronounced need to catch up in CEE in various fields
- There is room in particular re. loans, insurance products, account utilization, building society products, home loans and sophisticated investment products:
 - e.g. living space per person in CEE < 1/3 than in Western Europe
 - e.g. salary costs in SK approx. 40 % below the German level
- VBI therefore makes out a positive perspective in the mid-term
- Still good earnings potential in the CEE region
- Upward economic trend expected from year-end 2010 onwards

VBI Considerations for market entry

- Investor friendly climate **appreciated**, esp.
 - Sound and flexible regulative environment (supervisory regulations, banking law, e.g. no inappropriate obstacles for business entry and conduct)
 - Sound and reliable legal system (commercial law, collateral) and courts
 - Application of modern standards in accounting environment
 - Low level of bureaucracy
 - No. resp. low level of corruption
- Skilled, well educated and foreign language speaking people
